MOUNTAIN CLIMBERS — A portion of the "White Mountain History" class on the southern summit of Pine Mountain in Gorham, N. H., on the May 7 field trip. Some 30 people from Bethel and surrounding towns hiked the 2,404 foot peak (the northernmost of the Presidential) under perfect conditions and were rewarded with spectacular views of the Peabody, Moose and Androscoggin River valleys, as well as Pinkham Notch. Here, some of the party enjoyed the views north including the village of Gorham (far right) and the Mahosuc Mountains in the background. That same morning, the class visited the site of Hastings Village near Evans Notch, Maine.

REV. KINGSBURY RESIGNS PASTORATE OF CHURCH AT RUMFORD POINT

The Reverend Carl M. Kingsbury read his resignation as pastor of the United Church of Christ, Rumford Point, to become effective Sept. 1, 1977 at the close of the morning worship service last Sunday morning.

Rev. and Mrs. Kingsbury have been in the area for the past 14 years. Mr. Kingsbury has been active in many of the local activities. Their plans for the future are not definite other than that they do plan to settle in the area for the summer months and will winter in Florida.

In his resignation he assured the people that he will always be on call if his services are needed by anyone. Too, he stressed the fact that the time he has been with the people have been some of the happiest years of his life, and appreciated the many kind deeds that have been bestowed upon him, but he feels that it is time for him to go and let some one younger come and continue the work of the church. His message to everyone is, "May God Bless you and keep you always in His care."

COMMENTS FROM THE TOWN MANAGER'S OFFICE

The Board of Selectmen met Monday night, May 9, and acted on a long and varied agenda. Airport Advisory Committee members Jim Hudson and Edwin Brown met with the Selectmen to discuss the roles of the Selectmen and Airport Committee in instituting the Airport Master Planning process. Town Manager Norman Ness outlined the procedure involved in retaining the services of a consultant. The two groups agreed that the committee should make the initial contact with consultants and recommend two or three for interviews by the Committee and the Board of Selectmen.

The Airport Committee will meet Thursday evening, May 12, at 7:30 in the Town Office to begin this process. At 7:30 a Public Hearing was held on the problems of traffic flow and parking on Main Street. After considerable discussion of possible alternatives, the Selectmen, upon the recommendations of the Town Manager, Highway Foreman, and Police Chief, voted to make the following changes: (1) change all diagonal parking on upper Main Street to parallel parking; (2) retain diagonal parking from the Spa to the Fashion Basket with the exception that the parking space closest to the entrance of the IGA parking lot be eliminated; (3) make the lower IGA driveway (next to the Spa) one way, enter only; exiting from that driveway into Main Street continued on Page Four

HISTORICAL SOCIETY HEARS PRESERVATIONIST AT MONTHLY MEETING

Mrs. Sally Rand, Cundy's Harbor, President of Citizens for Historic Preservation, addressed the monthly meeting of the Bethel Historical Society Thursday evening, May 5, in the meeting room of the Moses Mason House. In honor of National Historic Preservation Week, May 8-14 Mrs. Rand's remarks focused upon the historic preservation movement in Maine, illustrating her discussion with slides, she used Freeport as a case study.

Following Mrs. Rand's address, the Smithsonian Institution's new film "To Fly" was shown, depicting man's effort to leave the limits of horizontal travel to move to the vertical and how this affected his perceptions of himself and his fragile earth.

In other business Mrs. Suzanne Fiske, Chairperson of the Museum Committee, reported on the progress in the museum and the work of the volunteers. Randy Bennett, Chairman of the Education and Research Committee announced that the Broad Street project is making good progress and the White Mountain History Course has exceeded all expectations as to enrollment with sixty-seven participating. Curator Stanley Howe advised the membership on historical meetings of the near future including ones in Concord, N. H., on historic site interpretation, in Bath on historic district formation and in Saco on document preservation. Anyone interested in attending any of these was asked to contact him for details.

— Mrs. Colista Morgan, Corres. —

It was a lovely morning with a light wind. My pansies by the walk way opened surprised faces to the sun. Under the maple a robin hauled away at a worm, stretching it until it gave way and he fell back.

As the day progressed, it grew warmer. The May sun shown on the waters and the hill broke green against the sky. Across the pond a few ducks swam.

At the feeder were the usual, plus the little birds in bright yellow jackets and black caps. Few birds seem to enjoy life more than these happy goldfinches.

That beauty, the rose-breasted grosbeak made a visit. I always look forward to his return each spring. He is beautiful, tuneful, and useful, what else can be desired? In the years past we had a pair then two pairs but last year we had several; some times four or five males at the same time.

After lunch I went on a treasure hunt not to touch or pick but to collect mentally and with my camera.

"Rural life is for living: The days are zestful and long. And the day begins with a song."

The rolling hills are friendly. Meadow grass lush and green. A star-spangled sky above you. So fragrant the air and clean. You sow and reap in season. And God rewards you in kind. You're one with all things around you. Sweet peace fills body and mind." — Eleanor Flock

It was fun to spend the early afternoon hours poking about in verdant woods.

From the road I began to climb a dry hillside thickly covered with brown leaves, through which new growth pushed up. The trilliums were wide eyed today. What else was new? In a little hollow watered by a clear gurgling brook, where the pale sun light filtered through the leafless branches, guarded by a pair of mottled, erect, sentinel-like leaves were clusters of dog's tooth violets. Bet-

ter and more suitable names are "Fawn Violets" or "Trout-lily."

Then ahead a curve in the trail and a hillside clear cut against the sky.

I saw where several trees had been brought down. With the canopy broken open, the sunlight had poured through and new growth had begun to spring up to meet it. Here, perhaps one of the best-loved as well as the best-known of the early wild flowers was found, the common blue violet. It is so suggestive of the dawning year, when life is full of promise.

Another find was the sweet white violet with scent faint and elusive, huddled in a low wet, woody place.

I looked for side routes easy to follow that invited me on. Some were backed by a bowl of hills which I didn't wish to climb today so I crossed through a grove to my left, then down to the road again.

The water of the pond crept through the cat-tails.

A pair of king fishers celebrating their return, with touselled head and harsh rattling voices, were moving along by the pond searching for fishing grounds.

At home again and on my drive way I discovered a strawberry plant in full bloom.

So I had had a pleasant time along the by-paths of nature in a green world.

Club Eight had its last get together on Wednesday until fall. They met with Fay Holt. Anna Jarvenpaa won the gift given by the hostess.

Again relatives, neighbors and friends called to wish Edla Tamlander a happy birthday. She was born in Finland May 7, 1895. She has lived here in Greenwood about 40 years.

"A heart at peace with all the world, content with simple things. She holds within her quiet rooms the best that heaven brings."

Northwest Bethel

— Clarice Gibson, Corres. —

What a beautiful Mother's Day! The sky was such a bright blue and with the green coming back to the lawns we begin to think of the summer ahead. Today, however, the sky is overcast and a chill in the air.

Mother's Day I received a call at 2:30 a. m. from Wilfred. Later in the Day Frank III and his wife Grace arrived. We were all going to Canton. Mr. and Mrs. Daniel Allen were having a family party in honor of my folks, Mr. and Mrs. George Allen's 50th wedding anniversary. My brother John flew in from California the night before.

Also present were Mr. and Mrs. Benjamin Tucker Jr. and children Stephen and Roxanne; Mr. and Mrs. Benjamin Tucker III and son, Benjamin IV. Another sister and husband, Mr. and Mrs. Donald Holden and Pearl, five grandsons of Mr. and Mrs. George Allen were not able to be there. George Allen was born in Newry. His father, John Allen, owned and operated a store on Main Street, Bethel until his death.

George Gibson also called last week and reported that he had flown from Virginia to Orlando, Fla., the week end before. George has now been promoted to Yeoman Seaman. James Gibson also called and said that he has a job on the campus grounds at UNO, so he will not be home this year.

Mrs. Robert McCoy was taken by ambulance Wednesday and was brought back home Friday. She had broken a bone.

Mr. and Mrs. Daniel Gibbs had Frank Benson make their cellar hole Saturday. His brother, Tommy Gibbs, bought the trailer from Coolidge after the Coolidges moved into their new home.

Sylvia Benson went one day last week and Barbara MacDougall went with Rachel McKay another day to visit Joan Coolidge. They report she is improving.

Mr. and Mrs. Homer Smith had their son and wife Mr. and Mrs. Bruce Smith and grandson Matthew for a Saturday visit.

Junior Bennett was on the road playing gardens Friday evening. Quite a few friends of Mrs. Elizabeth Bennett went Friday

afternoon to Riverside Cemetery for her committal services.

Orie Woods and Mark Goodywin from Noble High School, Berwick, were exchange band students and spent the night with Mr. and Mrs. Joe Shimamura and family.

Mother's Day, Joe took his wife, her mother, Mrs. Thelma Merrill and two sons to Northland Dairy for dinner. They then took a trip through 13 mile woods and came back through Upton.

Timmy Angevine broke his arm the 4th of May. He celebrated his 5th birthday, May 9 at his home. Attending were Mr. and Mrs. Victor Coolidge and Sara and grandparents, Mr. and Mrs. Ernest Angevine. Kristy is back in school after being home sick for a week.

Real Estate
by PAT EARLY
REALTOR

Opportunity Knocks . . . Now!

If there was ever a good time to buy real estate—that time is now!

From all indications, the real estate market has bottomed and is now on its way upward. New home starts reached a 29-year low in 1975 with an output of only 1.1 million homes. This increased to about 1.5 million in 1976 and the prediction for 1977 is 1.7 million. Upward—but still not adequate to meet our nation's demands. Over 65% of American families own their own homes. When demand outraces supply, prices always rise.

The mortgage market has turned around and now there are ample funds available for home loans. Although interest rates have become more favorable, they are not expected to drop much below current levels. In fact, they are expected to start easing upward during the second half of 1977.

Real estate has always been a sound investment and the best hedge against inflation. Its value historically increases faster than the cost of living. With all these factors falling into place, if there was ever a good time to buy—that time is NOW!

If there is anything we can do to help you in the field of real estate, please phone or drop in at EARLY REAL ESTATE, 60 Main St., Bethel. Phone: 824-2122, 824-2578. We're here to help!

Letters to the Editor
Newry, Maine
May 8, 1977

Dear Editor:
One section of the Governor's Tax Administration Proposals contained in L.D. 1742, calls for changing the assessment date from April 1 to Nov. 1. The reason given "to make valuations available prior to the adoption of Municipal Budgets, permit earlier establishment of the Tax Rate and Commitment, and less borrowing in anticipation of taxes." Before however, it is necessary not only to adopt the local budget, but to have the figures on the State and County Taxes and the School Budget. Since the figures on the Tax Rate, State and County Taxes, or into June, it is obvious that changing the date of assessing would do no good. Further, since Town Meetings fall between Nov. 1 and the date the Tax Rate could be set, the board of Assessors could very well set the local valuations, while a different board computed the taxes, which might cause problems.

The State has already taken over to such an extent that it is very difficult for local assessors to do a good job, and I feel that more power should be returned to Local Officials, rather than taking it from them. I hope that all our Legislators will see fit to vote against L.D. 1742.

One example of the unfairness and inconsistency of the State Tax Laws is the "Tree Growth Tax Law." On one hand the laws say that all property shall be taxed equally according to just value. However, under the Tree Growth Tax Law, large land owners pay much less than other property owners with property of equal value. In some cases, a large wood lot owner might pay as little as 20% of the tax other property owners pay on property of the same value. This is obviously very unfair to others, and places a greater burden on the income of home owners. I feel that any revision of the tax laws should give the power back to the local assessors, rather than give more to the State.

Sincerely,
Roger E. Hanscom,
Chairman of Selectmen

To the Editor:
In this week that has been designated National Historic Preservation Week it might be well to recall that two of our most sacred national structures, ones that to-day no patriotic American would even contemplate destroying, were even destroyed in 1853, half a century after George Washington's death. Mount Vernon was put up for sale; the family could no longer afford to maintain the plantation. A resort hotel was announced for the site, but the speculators had not reckoned with a dedicated South Carolinian, Ann Pamela Cunningham, who after attempts had been made without success to interest the government agencies in saving the structure began penning pleas. Miraculously her efforts saved Mount Vernon, now owned and maintained by the Mount Vernon Ladies' Association of the Union. It is today not only considered an architectural treasure but revered throughout the world as the home of a great American.

Moreover, just three decades after Jefferson had drafted the Declaration of Independence at Independence Hall in Philadelphia, government officials appeared intent upon tearing the building down and selling the land for development. Again it was interested citizens who preserved the future generations the unique experience of being able to value the great beauty and reflect upon the momentous events that brought this nation into being here.

On the local level there are a number of important buildings that have come down to us from the past and we devote ourselves to their preservation so that succeeding generations may have a greater appreciation of their architectural merit and historical significance.

Sincerely,
Stanley A. Howe

WILLARDS RETURN FROM INDIA

Returning to Bethel last week were Dr. and Mrs. John Willard, following another three months stay in Ahmedabad, India. Dr. Willard supervises a textile research project at ATRRA (Ahmedabad Textile Industry's Research Association) on behalf of the United Nations Industrial Development Organization (UNIDO) with periodic visits of three months to update the research program. Three additional visits are scheduled before project completion in late 1978.

Willard was selected by the United Nations and the Government of India as the Senior Research Consultant for this project, and drew up the basic research program in early 1975. Funded by UNIDO in excess of \$500,000, the project has provided ATRRA the most modern equipment, including scanning electron microscopy and infrared spectroscopy, for carrying out basic research in cotton textiles. The research program was written around the use of this and other equipment provided, to make possible the manufacture of all-cotton fabrics with drip-dry (no-iron) properties, together with easy removal of stains and soils in laundering, and, as required, flame retardancy. An ultimate purpose is to assist India's export markets.

On April 23, the Willards were privileged to join Bethel's Drs. Jim and Usha Wadhwa in Luthiana, Punjab, to attend the golden anniversary celebration of Mr. and Mrs. J. D. Chopra, parents of Dr. Usha Wadhwa.

ELEANOR GORDON GUILD

The Eleanor Gordon Guild will hold their annual Mother and Daughter Banquet at the United Methodist Church on Wednesday, May 18, at 6:30. Mary Doen will lead devotions and Frances Saunders will be in charge of the program. Each member is asked to bring a salad and hot dish and a wrapped gift for the program.

MAY IS "BETTER SPEECH AND HEARING MONTH"

More than twenty million Americans have speech, language, or hearing impairments which severely affect their ability to function as human beings. One of the major tragedies of modern health care is that so many of these individuals do not know how to get help for their communicative disorders. May is known as "Better Speech and Hearing Month" and in tribute to that I would like to provide some information on this subject to citizens in the Bethel area.

Speech and Language Clinicians and Audiologists, are the professionals who work with individuals with speech, language, and hearing impairments. There are hearing centers around the state of Maine that provide us with such services. Among them are The Hill Center in Waterville, The North Center in Waterville, The North Center in Waterville, The North Center in Waterville.

East Speech and Hearing Center in Portland, The University of Maine at Farmington Speech and Hearing Clinic and our closest, the Central Maine Speech and Hearing Center at Central Maine Medical Center, Lewiston.

In our own school district, our School Nurse, Mrs. Suzanne Bartlett, does hearing screenings annually in grades K, 3, 5 and 7 and any referrals made to her other wise, if any impairment is noticed in a child being screened, a recommendation is made to the parents to consult the family doctor. From there, further testing may be suggested at a Speech and Hearing Center.

In my own program as Speech Clinician for S.A.D. #44, I screen all first graders and any teacher or parent referrals in other grades for articulation, language and auditory sound discrimination problems. Those students found with problems in these areas are placed into my program to work on their special needs.

Awareness of human communicative problems and of the professional services available for persons with these problems is extremely important. Do your part this month and spread your knowledge of these services to someone who may be in need of them.

For further information on speech, language and hearing disorders write to The American Speech and Hearing Association in Washington, D. C.

Opponents of the measure contended that death was so final, that there was no relief for the man convicted and executed and posthumously discovered to be innocent.

I voted to put this issue to referendum because I felt that the people should be given the chance to decide. In the March question-naire I circulated 63% of those returned were in favor of the death penalty being re-instated.

STATE OF MAINE
HOUSE OF REPRESENTATIVES

Karen L. Brown

A hearing held Monday before the Committee on Natural Resources concerning LD 1390, 1392, 1683, 1687 to authorize the exchange of certain public reserved lands with Brown Company, Diamond International, Oxford Paper Company, a subsidiary of Boise Cascade Corporation and the Dead River group of companies.

There are a total of 400,000 acres of reserved lands (public lots) in Maine. Approximately 1,000 acres were reserved from every township of land as it was surveyed and sold off. This accounts for the name "reserved lands." Originally, this land was intended to promote the settlement of the unorganized territory.

In 1973, the Legislature created a Joint Select Committee on Public Lands; the study determined that the state should no longer promote the settlement of unorganized territory. Accordingly, the legislature declared that these lands are State assets, to be held and managed for the benefit of all the people of the State.

Each of these trades presents to the state a trade on a "value for value" basis, designed to create a self-supporting system of multiple use of forest lands. The legislation authorizing an exchange of public reserved lands with the Brown Co. (Berlin, N. H.) LD 1390, the state conveys 11,677 acres in 26 parcels, in exchange for approximately 15,358 acres in four parcels. The parcels involved include acreage in the area of Grafton Notch State Park, frontage on Moosehead Lake and Upper Richardson Lakes.

There was hot debate on the floor of the House Thursday when a bill seeking referendum for re-instatement of the death penalty arrived.

Opponents of the measure contended that death was so final, that there was no relief for the man convicted and executed and posthumously discovered to be innocent.

I voted to put this issue to referendum because I felt that the people should be given the chance to decide. In the March question-naire I circulated 63% of those returned were in favor of the death penalty being re-instated.
